INDEX TO VOLUME 34

The index covers only the major papers, their authors, and the principal headings. It does not include the abstracts. For the latter there is a separate index to authors on pages 132A–140A. Minutes of business meetings, etc. are entered only under American Society of Zoologists.

Abstracts, see note above.
  Index of authors, annual meeting, St. Louis, 132A–140A.
  Of annual meeting, St. Louis, 1A–131A.
ACOUSTIC COMMUNICATION IN ANURANS AND INSECTS: COMMON MECHANISMS IN BEHAVIOR, NEUROPHYSIOLOGY, AND EVOLUTION, 599–714
American Society of Zoologists,
  ASZ Audit Summary, iii.
  Minutes of annual business meeting, iii–iv.
American Zoologist,
  Directions for authors, cover 1.
  Editorial board, cover 1.
  Statement of ownership, 719.
  Subscriptions, cover 1.
ATKINS, GORDON AND JOHN STOUT, Processing of song signals in the cricket and its hormonal control, 655–669.
ANDERSON, ROGER A., Functional and population responses of the lizard *Cnemidophorus tigris* to environmental fluctuations, 409–421.
BACON, F., see DAYTON, PAUL K. *et al.*
BATES, WILLIAM R., Ecological consequences of altering the timing mechanism for metamorphosis in anural ascidians, 333–342.
BAXTER, RONALD J., see REZNICK, DAVID.
BEEMAN, RICHARD W., see BROWN, SUSAN J. *et al.*
BENSON, BARBARA J., see MAGNUSON, JOHN J. *et al.*
BOLKER, J. A., Comparison of gastrulation in frogs and fish, 313–322.
Book reviews, 172–173, 300–301, 476–477, 586–587, 715–716.
BRAINERD, ELIZABETH L., The evolution of lung-gill bimodal breathing and the homology of vertebrate respiratory pumps, 289–299.
BRIDGES, CHRISTOPHER R., see MORRIS, STEPHEN.
BRIDGES, TODD S., see LEVIN, LISA A.
BROWN, SUSAN J., JANET K. PARRISH, ROBIN E. DENELL, AND RICHARD W. BEEMAN, Genetic control of early embryogenesis in the red flour beetle, *Tribolium castaneum,* 343–352.
BURGGREN, WARREN W. AND ROBERT L. INFANTINO, JR., The respiratory transition from water to air breathing during amphibian metamorphosis, 238–246.
BYRNE, ROGER A. AND ROBERT F. MCMAHON, Behavioral and physiological responses to emersion in freshwater bivalves, 194–204.
CAVANAUGH, COLLEEN M., Microbial symbiosis: Patterns of diversity in the marine environment, 79–89.
CONGDON, JUSTIN D., ARTHUR E. DUNHAM, AND R. C. VAN LOBEN SELS, Demographics of common snapping turtles (*Chelydra serpintina*): Implications for conservation and management of long-lived organisms, 379–408.
CONSERVED GENES AND DEVELOPMENTAL MECHANISMS IN EMBRYOS OF DIVERGENT SPECIES, 303–363.
CONTRIBUTION OF LONG-TERM ECOLOGICAL RESEARCH TO CURRENT ISSUES IN THE CONSERVATION OF BIOLOGICAL DIVERSITY, 365–475.
CRACRAFT, JOEL, Species diversity, biogeography, and the evolution of biotas, 33–47.
CURRENT PERSPECTIVES ON THE EVOLUTION, ECOLOGY, AND COMPARATIVE PHYSIOLOGY OF BIMODAL BREATHING, 175–299.
DAYTON, PAUL K., B. J. MORDIDA, AND F. BACON, Polar marine communities, 90–99.
DEJOURS, PIERRE, Environmental factors as determinants in bimodal breathing: An introductory overview, 178–183.
DENELL, ROBIN E., see BROWN, SUSAN J. *et al.*
DOHERTY, JOHN A., Introduction to the symposium: Common themes in acoustic communication in anurans and insects, 601–604.
DUNHAM, ARTHUR E. AND KAREN L. OVERALL, Population responses to environmental change: Life history variation, individual-based models, and the population dynamics of short-lived organisms, 382–396.
DUNHAM, ARTHUR E., see CONGDON, JUSTIN D. *et al.*
EERNISSE, D. J., see STRATHMANN, R. R.
EMLET, RICHARD B., Body form and patterns of ciliation in non-feeding larvae of echinoderms: Functional solutions to swimming in the plankton?, 570–585.
EMLET, RICHARD B. AND EDWARD E. RUPPERT, Introduction to the symposium: Evolutionary morphology of marine invertebrate larvae and juveniles, 481–483.
ENDLER, JOHN, see REZNICK, DAVID.
EVOLUTIONARY MORPHOLOGY OF MARINE INVERTEBRATE LARVAE AND JUVENILES, 479–585.
FARRELL, BRIAN D. AND CHARLES MITTER, Adaptive radiation in insects and plants: Time and opportunity, 57–69.
FITZGERALD, LEE A., The interplay between life history and environmental stochasticity: Implications for management of exploited lizard populations, 371–381.
FLANAGIN, JOSEPH I., see SMITS, ALLAN W.

T. G. FORREST, From sender to receiver: Propagation and environmental effects on acoustic signals, 644–654.

GARDINER, STEPHEN L. AND MEREDITH L. JONES, On the significance of larval and juvenile morphology for suggesting phylogenetic relationships of the Vestimentifera, 513–522.

GERHARDT, H. CARL, Selective responsiveness to long-range acoustic signals in insects and anurans, 706–714.

Statement of Ownership, Management and Circulation required by the Act of August 12, 1970; Section 3685, Title 39, United States Code; of

THE AMERICAN ZOOLOGIST

Published bi-monthly (February, April, June, September, November, December) by the American Society of Zoologists, 401 N. Michigan Ave., Chicago, IL 60611-4267. Managing Editor: Milton Fingerman, Department of Ecology, Evolution, and Organismal Biology, Tulane University, New Orleans, La. 70118.

Owned by the American Society of Zoologists (a non-profit organization). Known bond-holders, mortgagees, and other security holders owning or holding 1 per cent or more of total amounts of bonds, mortgages, and other securities: None.

The purpose, function, and non-profit status of this organization and the exempt status for Federal Income tax purposes have not changed during the preceding 12 months.

Total no. copies printed, average no. copies each issue during preceding 12 months: 4500, single issue nearest to filing date: 4500. Paid circulation (a) sales through dealers and carriers, street vendors and counter sales, average no. copies each issue during preceding 12 months: 0; single issue nearest to filing date: 0. (b) Mail subscriptions, average no. copies each issue during preceding 12 months: 4100; single issue nearest to filing date: 4100. Free distribution, average no. copies each issue during preceding 12 months: 0, single issue nearest to filing date: 0. Total no. of copies distributed, average no. copies each issue during preceding 12 months: 4100, single issue nearest to filing date: 4100.
